Date of Birth:

10.10.1979

Marital Status:

Single, no children

Nationality:

British

Short Profile

I have experience of many roles from junior web development to running a small department in a supermarket to internet research and computer & network maintenance for an author.

I am able to use multiple operating systems and their respective office software.

I am perceived as a well mannered and conscientious person who will do whatever it takes to ensure customer satisfaction.

I am looking for a job in the IT industry in Berlin where I will get to use my existing skills and learn new skills as well.
